01

Knowledge Graph

Google's Knowledge Graph revolutionized data searching by providing direct and precise answers to user queries, but critics argue it limits curiosity and exposure to content.

02

Visual Language

Visual Language, using symbols and colors, can provide uniform direction for users speaking different languages, but must consider diversity and simplicity for a positive user experience.

03

The Beresheet effect: can everyone be entrepreneurs?

Israel's Beresheet spacecraft, a privately initiated lunar mission, demonstrated the nation's scientific and technological prowess despite not landing successfully. Encouraging entrepreneurship among workers in organizations can lead to innovative ideas, cost savings, and motivation.
