Using Maslow's Hierarchy of Needs in the Context of the Knowledge Management Project

Maslow's hierarchy of needs is applied to knowledge management, mapping an organization's knowledge infrastructure, accessibility, culture of sharing, recognition, and leveraging knowledge for success. It provides a framework to evaluate an organization's knowledge management maturity.

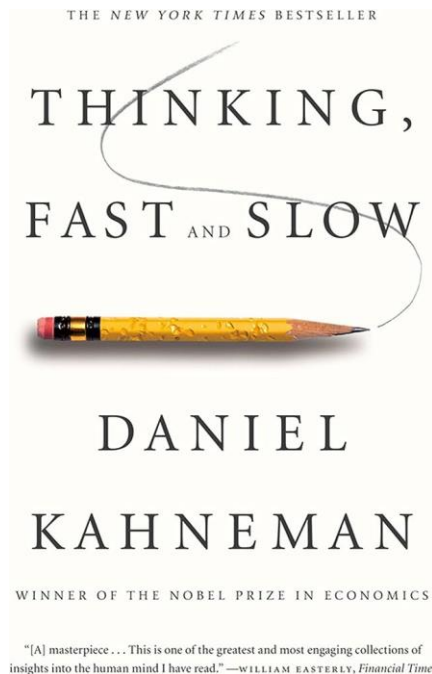

03

Personal Knowledge Management

Personal Knowledge Management focuses on individual skills for handling, communicating, and developing knowledge to deal with information overload and enhance professionalism. It empowers workers and benefits organizations.

Thinking, Fast and Slow - Book Review

"Thinking, Fast and Slow" by Daniel Kahneman explores cognitive systems, biases, and value theory, delving into the interplay of System 1 and System 2 thinking. Illustrated with examples, the book challenges conventional wisdom, providing a profound understanding of human behavior, decision-making, and the complexities of thought processes.
